

## **Andrew E. Skodol, M.D.**

Andrew E. Skodol, M.D. is Research Professor of Psychiatry at the University of Arizona College of Medicine and Adjunct Professor of Psychiatry at the Columbia University College of Physicians and Surgeons. He is Chair of the Steering Committee and one of the Principal Investigators of the multi-site, NIMH-funded Collaborative Longitudinal Personality Disorders Study (CLPS). He is a member of the Task Force for DSM-V and Chair of its Personality and Personality Disorders Work Group. In June 2008, he became President of the Sunbelt Collaborative in Tucson, Arizona. He has published extensively on the topics of clinical psychiatric diagnosis, the assessment of stress and psychosocial functioning, and personality disorders. He was in private practice in New York City for 31 years.

Dr. Skodol is a graduate of Yale University and the University of Pennsylvania School of Medicine. He received his psychiatric training at the Albert Einstein College of Medicine where he continued as Assistant Professor until coming to Columbia in 1979. He was a Research Psychiatrist in the Biometrics Research Department at the New York State Psychiatric Institute, where he organized national training efforts for DSM-III. He became the Director of the Department of Personality Studies from 1997 to 2007 and also served as the Deputy Director of the Institute from 2000 through 2003. He was President of the Institute for Mental Health Research in Arizona in 2007 and 2008.

Dr. Skodol is certified by the American Board of Psychiatry and Neurology. He is a Distinguished Life Fellow of the American Psychiatric Association; Fellow of the American Psychopathological Association; Member of the American College of Psychiatrists; Member of the Section on Classification, Diagnostic Assessment, and Nomenclature of the World Psychiatric Association; Chair of the Collaborative Research Committee of the International Society for the Study of Personality Disorders; and Past President of the Association for Research on Personality Disorders.
